

# Victims of Crime in the Developing World (Publication)

## Research Brief

### Multiple Systems Estimation for estimating the number of victims of human trafficking across the world

Based on a paper written by Jan van Dijk and Peter G. M. van der Heijden for UNODC<sup>1</sup>

**Sustainable Development Indicator 16.2.2: "Number of victims of human trafficking per 100,000 population, by sex, age group and form of exploitation" (E/CN.3/2016/2/Rev.1)**

<sup>1</sup> This Research Brief was developed by the UNODC Research and Trend Analysis Branch under the overall coordination of Angela Me and in collaboration with Kristina Kangapsunta, Fabrizio Sarrica and Tejal Jesrani. The publication was written by Jan Van Dijk, emeritus professor of victimology at the University of Tilburg, the Netherlands and visiting professor of victimology at Lausanne University, Switzerland; and Peter G. M. van der Heijden, professor of statistics for the social and behavioural sciences at Utrecht University in the Netherlands and professor of social statistics at the University of Southampton, UK.
