Description

Thinking Tree Books
Ages 10+

Do you have a brilliant student who struggles with math? You know your child is smart, creative and amazing, so why is math such a difficult subject?

Maybe your child is a visual thinker, the inventor type, who needs to learn math in a different way! If your student struggles with memorizing facts and mathematical procedures try this! Give your student a math book that they can understand and enjoy!

Math Genius! One of our most popular practical math books. This is the inventive book that sparks a student's love for math!

For the high-school student who is creative and bright but thinks that they are not good at math. For the eleven year old with a passion for figuring things out. For the seven-year-old who knows how to use a calculator... with dad's help.
