

Learning Android Google Maps

The screenshot shows the Google APIs console interface. At the top, there's a search bar and a navigation menu. The main content area is titled 'Overview' and shows the 'Google Maps Android API' status. A warning message states: 'This API is enabled, but you can't use it in your project until you create credentials. Click "Go to Credentials" to do this now (strongly recommended)'. Below this, there are tabs for 'Overview', 'Usage', and 'Quotas'. The 'Overview' tab is active, displaying instructions on how to add maps to an Android application and a section titled 'Using credentials with this API'. This section includes a sub-section 'Using an API key' and a diagram illustrating the flow from 'Your application' to 'API key' and then to 'Google service'.
